

## **Gee-Yu Liu**

[karl@ncree.org.tw](mailto:karl@ncree.org.tw)

**Gee-Yu Liu** is an associate research fellow at the National Center for Research on Earthquake Engineering (NCREE), Taiwan. He received the B.S. degree in mechanical engineering from the National Chiao Tung University, Hsin-chu, Taiwan, in 1987, the M.S. degree in mechanical engineering from the National Taiwan University, Taipei, Taiwan, in 1989, and the Ph.D. degree in applied mechanics from the National Taiwan University, Taipei, Taiwan, in 1996. He has been working at NCREE since the autumn of 1996. Dr. Liu's area of specialization is earthquake engineering with emphasis on seismic scenario simulation and loss estimation, and seismic serviceability analysis of lifeline network systems including electric power and water.
